(b) Legal

- i. The legal division perform the role of contract management for the municipality due to their role in understanding and negotiating complex terms and conditions. Legal's role is to provide expert advice to the contract owner and accounting officer.
- ii. In-house or outside specialist legal advisory services may be required, from time to time, to establish and manage contracts. Legal division develop general conditions of contract for the majority of circumstances and special conditions where required.
- iii. Legal division is also involved in the following circumstances:
 - dispute resolution;
 - implementation of variations;
 - implementation of contract changes;
 - contractor distress;
 - breach of contract, penalties and termination; and
 - enforcement of indemnities, guarantees and contractual claims.

(c) Accounting Officer

- i. Overall accountability for all contractual agreements entered into by Musina municipality resides with the accounting officer. Hence, they are required to have a general understanding of the contract

classifications and associated exposure contained in the Contracts Inventory. The accounting officer must ensure that staff involved in contract management have the necessary skills and qualifications to carry out their tasks and provide appropriate and timely advice.

(d) Supply Chain Unit

The supply chain management unit ensures;

- i. that manual systems are in place to ensure secure storage of and easy access to all contract documentation and the information contained in those documents.
- ii. that contract documentation must be identified for each contract and may include but is not limited to:

The supply chain unit is the custodian of all bid documents and contract documents of Musina municipality

The supply chain unit must ensure that all documents and information contained in the contract documents must be appropriately recorded and filed accordingly.

51.6 Amendment / Extending of Contracts

A contract or agreement procured through the supply chain management policy of the municipality may be amended by the accounting officer, in exceptional circumstances.

It is recognized that, in exceptional cases, an accounting officer may deem it necessary to expand or vary order against the original contract.

(a) Contract(s) may be expanded or varied by not more than 20% for construction related goods, works and/or services and 15% for all other goods or services of the original value of the contract after approval by the accounting officer.

(b) Any expansion or variation of contract in excess of these thresholds must be dealt with in terms of the provision to section 116(3) of the MFMA which will be regarded as an amendment to contract and should be approved by council. However this is not applicable to transversal term contracts facilitated by the relevant treasury on behalf of the municipality

Contracts providing for compensation based on turnover

52. If a service provider acts on behalf of a municipality to provide any service or act as a collector of fees, service charges or taxes and the compensation payable to the service provider is fixed as an agreed percentage of turnover for

the service or the amount collected, the contract between the service provider and the municipality must stipulate –

- (a) a cap on the compensation payable to the service provider; and
- (vi) that such compensation must be performance based.

Sureties and retention

53. Bid securities are normally required from bidders in the construction and engineering disciplines, as well as from auctioneers. The accounting officer/authority may decide whether bidders should supply securities at the bidding phase. Bid security should not be set so high as to discourage bidders. Bid security should remain valid for a period of four weeks beyond the validity period for the bids , in order to provide reasonable time for the institution to act if the security is to be called. Should the recommended bidder or the contractor withdraw his/her bid prior to the award of the bid or commencement of the contract, the bidder/supplier may forfeit his security to the institution. Bid securities should be released to unsuccessful bidders once it is determined that they will not be awarded the contract.

(1) Sureties

Sureties shall be determined according to affordability and risk. The following sureties shall be considered appropriate for the different categories of contract:

Micro projects	-	Nil
Small projects	-	2,5%
Medium projects	-	5%
Large projects	-	10%

Where the SMME service provider could not be able to arrange sureties prior to awarding of the contract, surety amounts shall be deducted from the first progress payment certificate based on work certified.

(2) Retention

Retention money withheld from a contractor during the construction period must be affordable, according to risk. The following limits to retention shall be made applicable on the four categories of contract:

Micro projects	-	Nil
Small projects	-	2,5%
Medium projects	-	5%
Large projects	-	10%

Sale of bid document

- 54.** Accounting officers/authorities may decide to charge a refundable or a non-refundable fee for bidding documents if and when necessary, provided that:
- (a) The fee should be reasonable and reflect only the cost of the technical consulting, printing and delivery costs to prospective bidders;
 - (b) The fee should not be so high as to discourage prospective bidders; and

Insurance

- 55.** The municipality shall effect and maintain insurance of the Works and Public Liability Insurance for the duration of the project. The emerging contractor shall insure all constructional plant owned, leased or hired by him which is brought onto the site. He shall also pay all contributions required in terms of the provisions of Occupational Health and Safety Act, 1993 (as amended).

Excess payments on insurance claims

- 56.** .(1) Micro to medium projects

Excess amounts on insurance in respect of causes entirely beyond the emerging contractor's control such as rain and flood damage shall be the responsibility of the Municipality

Excess amounts on claims attributable to insufficient precautions by the emerging contractor such as theft shall be fully borne by the emerging contractor.

(2) Large Projects

All excess amounts will be the responsibility of the contractor

Penalties

57. Penalties will be a standard clause with awards. If no penalty clause was applicable, some, contracts could and probably would take years to complete. On the other hand penalties must not punish or harm an emerging contractor to such an extent that the empowerment of previously disadvantaged individuals cannot be realized.

From the above it is obvious that a balance must be found where the penalty urges and encourages the emerging contractor to complete the project on time, but if he fails to do this, the penalties must not put him out of business. A penalty clause does not and cannot ensure that a contract will be completed timeously, but if contract completion is late, the enforcement of penalties will become a reality.

The following penalties shall be applicable:

Micro projects	-	0.02% of Contract amount/day
Small projects	-	0.04% of Contract amount/day
Medium projects	-	0.06% of Contract amount/day
Large projects	-	0.1% of Contract amount/day

Payments

58. (1) Time of payment

Payment certificates are normally payable within 30 days after being approved by the Municipal Manager (General Condition of Contract). The lack of finance is a serious constraint to SMME's and to assist in this regard payments to this group shall be fast-tracked where possible.

(2) Cessions

To further alleviate these constraints, signed cessions by the SMME's to financiers that assist SMME's shall be accepted so that payments can be

made directly to those financiers, ensuring the continuous delivery of materials. Where cessions are accepted the utmost care shall be taken to ensure that the Municipality is properly indemnified.

Confidentiality

59. After public opening of bids, information relating to the examination, clarification and evaluation of bids and recommendations concerning awards should not be disclosed to bidders or other persons not officially concerned with the process, until the successful bidder is notified of the award.

Debriefing

60. If after notification of award, a consultant wishes to ascertain the grounds on which its proposal was not selected, it must address its request in writing to the accounting officer/authority. If the supplier is not satisfied with the explanation given by the accounting officer/authority, the supplier may refer this matter to the relevant treasury, Public protector or court of law.
