This can effectively only be done through the medium of personal contact with a wider range of local government stake holders.

The municipality also has an obligation to provide official vehicles to certain employees to enable them to effectively exercise their daily duties.

This policy sets out the basis for:

- the payment of a subsistence and travel allowance for the purposes of official travelling.
- Participation in the Motor Vehicle Allowance Scheme, and
- Transport control.

3. POLICY STATEMENT

A. Travel and Subsistence.

Councillors, Management and employees of the Municipality will be paid a travel and subsistence allowance to travel to areas outside the jurisdiction of the municipality for official business purposes.

B. Motor Vehicle Allowance Scheme.

The Municipality implements and manages a Motor Vehicle Allowance scheme for certain post levels and positions, as identified from time to time, and the Scheme framework forms part of this policy.

C. Transport Control

The Musina Local Municipality owns and manages a fleet of vehicles which form part of the municipality's assets, and which must be managed and accounted for by the employees who have to use those vehicles. This policy sets out the basis for the management and control of the municipality's fleet of vehicles.

B. MOTOR VEHICLE ALLOWANCE SCHEME

This section provides for the payment of a motor vehicle and travel allowance at rates as determined by the Bargaining Council from time to time, or Council, as the case may be, for the utilisation of a private vehicle in the execution of official duties.

(Participation in this scheme is intended for) The incumbents of post levels 1 – 3, automatically qualify to participate in the Motor Vehicle Allowance Scheme, or post levels as may be determined from time to time by way of post evaluation or organisational changes as determined by council from time to time.

1. Fixed Transport Allowance

The tariff for the basic distance allocated to an employee is paid to the employee for journeys within the boundaries of the Musina Local Municipality and he/she is not required to provide proof of the distance travelled for official journeys. The employee will be compensated for journeys outside the boundaries of the municipality in accordance with the prescribed tariff for total running costs for the actual distance travelled.

It is a requirement that the participating employee shall have private transport available on a daily basis for the execution of official duties. The payment of a monthly transport allowance to the various participating employees is subject to the following conditions:

- 1.1 that no official transport is provided to such incumbents,
- 1.2 that journeys between residence and place of work do not form part of the allowance,
- 1.3 that all other requirements considered in this scheme are complied with; and,
- 1.4 that where the local circumstances justify or require that in respect of a certain class of employee the restrictions contained in this scheme be relaxed, it is implemented with the sanction of the Bargaining Council.

2. (Running) Transport allowance for posts other than post level 1-3)

Where it is agreed with an employee, (other than Section 57 Managers and those on post levels 1 – 3) to daily utilise private transport for the execution of official duties, and such employee travels more than 300 km per month in the process, a (running) monthly transport allowance shall be paid in accordance with the total distance travelled, provided that the maximum limitation as agreed upon by the Council, or 650 km is not exceeded. The post to which this monthly transport allowance is coupled will be designated as a transport allowance bearing position and will be subject to the conditions specified in the Motor Vehicle Allowance Scheme applicable to post levels 1-3.

For the determination of distances with regard to a monthly transport allowances, the following principles shall apply:

- Monthly log sheets must be submitted by the employee for a period of three months to determine an average kilometre meter distance per month.
- These log sheets must be approved by the Head of the Department.
- Should an employee not be satisfied with the determination or re-determination of the official distance limitation applicable to the transport allowance bearing position occupied by him, the matter should be referred to the Municipal Manager for consideration.
- In the event of failure to reach an agreement, the employee may refer the matter to the Bargaining Council.)

The maximum kilometre distance (distance limitation) per month that the municipality determines for such post (other than post levels 1- 3 posts), must be made known to the employee and mutually agreed upon.

In cases when an official has to travel more than 1 500km per month for official purposes, it is suggested as a guideline that such incumbent rather be provided with an official vehicle.

3. Ad-hoc transport allowance in respect of temporary and casual official journeys.

Ad-hoc transport allowances are payable in cases where temporary or casual official journeys are undertaken by means of private transport. The following provision will apply:

- 3.1 An employee occupying a transport allowance bearing position and who temporarily occupies another transport allowance bearing position and leaves his own position, shall from that date and for as long as he/she temporarily acts in the other position, be paid a transport allowance based on the official annual kilometre distance applicable to the temporary position, or the transport allowance applicable to his/her own position, whichever is the bigger, and the transport allowance payable in terms of this paragraph shall be calculated as follows:

$$A = (B \times C/12 \times K/F) +)b \times c2/12XM/F)$$

Where A = The monthly transport allowance,

B = Total vehicle ownership cost per kilometre based on the actual new purchase price of the vehicle provided by the employee, subject to the provisions of clause 7 on an annual kilometre distance of 14 000 km;

C1 = Official annual kilometre distance in respect of employee's own position as determined;

C2= Official annual kilometre distance in respect of the position temporarily occupied by the employee, as determined;

F= Number of working days in the calendar month in which the transport allowances are calculated;

K= Number of working days that the employee occupies his own position in the calendar month mentioned in F;

M= Number of working days in the calendar month mentioned in F that the employee occupies the temporary position mentioned in C2.

- 3.2 An employee who occupies a transport allowance bearing position and who, temporarily, in addition to his duties, occupies that of another employee for a period of (five) ten working days per month or more, shall receive the transport allowance applicable to the post occupied by him, as well as an additional amount, calculated on a pro rata basis as the difference between his/her travel allowance and that of the acting position.

The additional portion shall be calculated as follows:

$$A = g \times a$$

Where A = the additional amount,

g = total running costs per kilometre,

a = Kilometre distance travelled in the execution of duties applicable to the position of the other employee.

- 3.3 An employee who does not carry a transport allowance bearing position, when acting temporarily in the place of an employee who does occupy a transport allowance bearing position shall, if such employee provides a private vehicle for the period during which so acting, receive the transport allowance applicable to such transport allowance bearing position. The transport allowance shall be calculated as follows:

$$A = b \times c / 12 \times e / f$$

A = Transport allowance payable;

b = Total vehicle ownership cost per kilometre, based on the actual new purchase price of the vehicle provided by the employer, subject to clause 7 and on an annual kilometre distance of 14 000 km;

c= annual kilometre distance as determined in respect of the position in which the employee temporarily acts;

e = Number of working days that the employee acts in the temporary position I the calendar months mentioned in f;

f= Number of working days in the calendar month in which the transport allowance is calculated.

3.3 Casual transport payments

Any employee to whom the abovementioned paragraphs do not apply and who, on the instructions of a Head of Department or the Municipal Manager, provides casual transport in the service of the Council, shall be paid a transport allowance for the actual kilometre distance travelled, including one return journey between residence and place of work, with a maximum of 10 km return for every day that the employee provides such transport in the Council's service. The casual transport allowance shall be calculated as follows:

$$A = b \times c$$

Where A = the casual transport allowance payable,

b = total vehicle ownership cost per kilometre, based on the actual new purchase price of the vehicle provided by the employee, subject to the provisions of clause 7 and on an annual kilometre distance of 14 000 km;

a = Actual kilometre distance travelled.

3. Calculation of transport allowances

The actual transport allowances payable shall be calculated according the schedules provided by the Department of Transport from time to time.

(3.1 Basis of Compensation (tables)

All transport allowance payments shall be calculated in accordance with the tables of the Automobile Association of SA (AA) for "Estimated average car ownership cost over six years".

The AA tables provide for the following factors:

4.1.1 Fixed Cost

This factor includes the following elements:

Depreciation on new car value, loss of interest (at current rates), comprehensive insurance (based on Reef premiums), licence, registration and parking fees. To calculate the fixed cost, the actual purchase price shall be related to the annual distance travelled. For the purpose of fixed cost, the purchase price, excluding VAT, shall be used as basis. Should this price be higher than the retail sales value of the vehicle, according to the "auto Dealer's Digest" the last value shall be used for calculation purposes.

4.1.2 Cost of fuel

This factor is related to the price of premium and regular fuel on the Reef and on the Coast. Fuel consumption factors for urban and rural journeys have been applied.

4.1.3 Maintenance Cost

This factor includes the following elements:
Tyres, spares, repairs, servicing, lubrication, and wash and polish over a period of six years, being the life span of the motor. To obtain maintenance costs in cents/km relate the engine size to annual distance travelled.

4.1.4 Total ownership cost

This factor represents the sum total of the fixed, fuel and maintenance cost of a vehicle and represents the tariff base for transport allowance calculations. No deviation is allowed from the above-mentioned table which represents the tendency of projected average motor ownership costs over six years. The municipality must, for the purpose of this scheme, use the prescribed tables for the calculation of transport allowances, whether of a fixed, running or ad-hoc nature.

4.2 Principles of compensation

4.2.1 A transport allowance is payable monthly and is calculated as follows:

$$A = b \times c / 12$$

Where A = The monthly transport allowance;

b= total ownership cost per kilometre;

c= total annual kilometre distance.

4.2.2 The transport allowance for a particular calendar month shall where possible, be paid to the employee at the end of the same month.

4.2.3 With regard to periods of unpaid leave or the period prior to an employee assuming duty in the particular transport allowance bearing position, the monthly transport allowance shall be reduced on a pro rata basis.

4.3 Fixed transport allowance payments

These payments refer to the fixed amount which is payable monthly to the incumbents of posts on post levels 1 – 3 on the establishment of Council. The basis for calculation and payment is as follows:

- 4.3.1 The specified tariff for fixed fuel and maintenance costs in the (appropriate AA tables for vehicles travelling 10 000 km per annum), as provided for the the Department of Transport schedules, provided that the calculation is limited to the maximum of 100% of the employee's basic monthly salary;
- 4.3.2 The fixed distance limitation pertaining to the particular post;
- 4.3.3 In respect of official journeys outside the limitations specified above, only the prescribed tariff for total running costs, fuel and maintenance, is payable.

4.4 Payments for running and ad hoc transport allowances

These allowances refer to the amounts payable monthly to incumbents of transport allowance bearing positions who, in accordance with distance limitations and with the aid of journey or log sheets, submit claims for the actual distance travelled, up to and including the maximum prescribed distance. This basis of calculation also applies to employees who are not appointed to transport allowance bearing positions but who do from time to time utilise private transport to undertake ad hoc journeys for official use.

The basis to calculation and payment of running and ad hoc transport allowances is as follows:

- 4.4.1 The tariff for fixed, fuel and maintenance costs, as specified in (the appropriate AA tariffs) Department of Transport schedules for vehicles travelling 14 00 km per annum. Calculation with regard to running and ad hoc travel allowances are however, limited to vehicles with a maximum cylinder capacity of 2,500 cc and the maximum of 100% of the employee's salary.
- 4.4.2 The approved distances completed for official purposes with private transport.

5. Adjustments and revisions of transport allowances

The calculations of transport allowances are adjusted automatically and amended in terms of the (AA tables) Department of Transport schedules, published from time to time. The adjustments and amendments will be effected from the first day of the month following the month of adjustment in which the Department of Transport publishes the revised calculations for car ownership cost.

6. Suspension of transport allowance

6.1 Should an employee occupying a transport allowance bearing position be transferred at his own request, and by mutual agreement, to another position not bearing any travel allowance, the existing transport allowance shall be paid for a period of six months from the date of transfer, where after no transport allowance shall be payable. (from the date of transfer.)

6.2 Should any employee who occupies a transport allowance bearing position be transferred by the Council to a non transport bearing position without the employee requesting the transfer, the employee shall continue to receive the existing transport allowance contractual to incumbent. (the municipality shall give the employee six months notice of the retraction of the transport allowance, during which period of six months the employee shall receive a monthly transport allowance calculated on the following basis, provided the employee's vehicle is not utilised by the Council during such period:

$$A = b \times c / 12$$

Where A = the monthly transport allowance;
b = total cost per kilometre;
c = total annual kilometre distance.)

Delete:

6.3 (Should the Council decide to retract an employee's transport allowance, the municipality shall give such employee six months written notice of the retraction during which period of six months the employee shall receive a monthly transport allowance calculated on the basis as in 6.2 provided that the employee's vehicle is not utilised by the Council during this period.)

- Delete:
- 6.4** (The provisions of this paragraph do not affect loans granted in terms of clause 7 for the purchases of vehicles.)

7. Interest subsidy on motor vehicle loans

7.1 Conditions

The Council will not grant any motor vehicle loans, but employees who qualify for motor vehicle loans will receive an interest subsidy. This subsidy is based on the difference between the interest as charged on the previous loan scheme, eight and a half (8,5) percent for employees and the lower of the interest rate on the motor loan obtained from an official financial institution or the current bank lending interest rate.

The granting of an interest subsidy on a motor vehicle is subject to the following conditions and limitations:

7.1.1 Qualifying requirements

Interest subsidies are meant for employees who participate in the transport allowance scheme. Such subsidies are limited to incumbents of transport allowance bearing positions for such employees are obliged to use private transport daily for the execution of official duties.

Consequently, employees receiving casual or ad hoc transport allowances do not qualify for benefits under this scheme.

7.1.2 Vehicle choice and purchase price

7.1.2.1 With due regard to the kilometre and purchase price limitations mentioned earlier, the choice of vehicle to be purchased by the employee in terms of the scheme for daily use will rest with the employee.

7.1.2.2 The purchase of second hand vehicles is however, subject to the issue of a certificate of suitability by an examining officer appointed by the Council to report on the general conditions and value of the vehicle.

- 7.1.2.3 A vehicle loan may not be negotiated for more than 100% of the actual cost of the vehicle, VAT included. The vehicle in respect of which the loan is granted, must be the vehicle used for the execution of official duties.
- 7.1.2.4 In the case of second hand vehicles, the maximum amount of the loan shall be equal to the retail sales value of the particular vehicle as reflected in the "Auto Dealers Digest" plus VAT, provided that it shall never exceed the amount referred to in 7.1.2.3 above.
- 7.1.2.5 In cases where the purchase price of the vehicle, new or second hand exceeds the maximum loan amount, the borrower will only receive an allowance of up to 100% of his/her annual salary.

7.1.3 Loan limitations

The maximum interest subsidy amount which an employee may borrow to purchase a vehicle shall not exceed 100% of the particular employee's annual salary, excluding the annual bonus and allowances. The interest subsidy will be limited to 100% of the employee's annual salary.

7.1.4 Limitations of the interest rate

Interest rate subsidies are financed from funds as determined by Council at the difference between the annual interest rate of 8.5% and the current financial institution lending rate.

7.1.5 Duration of interest subsidies

The maximum period for which the interest subsidy will be received is as follows:

7.1.5.1	New vehicles	Six years
7.1.5.2	Second hand vehicles	
	- less than one year old	Five years
	- one to two years old	Four years
	- Older than two years	Three years

7.1.6 Interest rate on subsidy frequency

No employee may receive a new or further interest rate before the former loan has been fully redeemed. An employee shall only be entitled to one loan every three years unless Council specifically decides otherwise in respect of an application by an employee.

7.2 Formalities to be complied with when entering into a vehicle interest rate subsidy agreement.

The following formalities shall be complied with prior to a vehicle interest rate subsidy being granted:

- 7.2.1 A formal application form must be completed.
- 7.2.2 After approval of the interest subsidy application, an invoice from the seller/purchase agreement must be submitted prior to a subsidy agreement being signed and payment of the subsidy amount being affected.
- 7.2.3 Within two working days from the signing of the agreement and effecting payment, the following documentation must be submitted:
 - Original registration certificate issued to the borrower, vehicle to be registered in the name of the applicant for the duration of the time that the interest subsidy is received.
 - Original license receipt.

7.3 Safeguarding of assets.

- 7.3.1 All vehicles linked to the motor vehicle allowance scheme, all municipal vehicles, as well vehicles used for official purposes by the Municipal Manager and Section 57 Managers will be insured by Council against any fire, theft, accident and consequential damage, and will include the installation and monthly premiums for a tracker system as required by the insurers in respect of the particular vehicle.
- 7.3.2 It any one of the vehicles referred to in 7.3.1 above should be unavailable for use due to prescribed services, repairs or damages for a period exceeding 12 hours, the employee or councillor may make use of a rental vehicle on the basis as set out in paragraph 6, chapter A.
- 7.3.3 An employee shall immediately hand to the employer for safekeeping the registration certificate of a vehicle bought with the aid of an interest subsidy. During the loan period the employee may not apply for a duplication certificate of the vehicle without obtaining prior written approval from the council.
