1. INTRODUCTION

Chapter 5 of the Municipal Systems Act, No. 32 of 2000 requires that municipalities must develop an integrated development planning (IDP) to give effect to the objects of local government as set out in section 152 of the Constitution, give effect to its developmental duties as required by section 153 of the constitution and together with other organs of state contribute to the progressive realisation of the fundamental rights contained in section 24,25,26,27 and 29 of the Constitution.

The Act further requires that in terms of section 28(1), (2), (3) each municipal Council, within a prescribed period after the start of its elected term, must adopt a process set out in writing to guide the planning, drafting, adoption and review of its IDP. The municipality must through appropriate mechanism, processes and procedures established in terms of Chapter 4, consult the local stakeholders before adopting the process. Notice must be given to local community of particulars of the process it intends to follow. The municipality is charged with the responsibility of drafting the process plan which should be aligned to the District municipality's IDP Framework which has to be agreed upon by local municipalities within Vhembe district municipality. The district framework should be used by our municipality as a basis for drafting the Process Plan.

The Integrated Development Plan, as a key tool for Musina Local Municipality to tackle its developmental role, should be completed and therefore provides and represent a continuous cycle of development planning, implementation and review. Implementation will commence after the adoption of the 5 year IDP in MAY 2022 and this therefore gives a way to assess the performance and achievement of targets as well as strategic objectives through the IDP Review Process, as a legislative requirement by Section 34 of the Municipal System Act. The review process ensures a continuous improvement and relevance of the IDP to the Musina Local Municipality strategic plans, therefore informing its financial and institutional planning.

This IDP Review Process Plan covers the following aspects:

- Distribution of roles and responsibilities
- Institutional Arrangements for implementation
- Binding legislation and planning requirements
- Cost Estimations for the Review Process
- Action programme with timeframe

The current 2023/24 financial year is giving the basis of the five year term of office of the present Council, and this is the third year for the council after adopting its Five year IDP in May 2022 and subsequently endorsed for implementation by the Council after elections on 27 October 2021 which will continue until the final year lapses for the newly elected Council in 2026/27.

2. **DISTRIBUTION OF ROLES AND RESPONSIBILITIES**

The IDP Process, being consultative and participatory in nature, necessitates specific roles and responsibilities for various structures within and outside the municipal jurisdiction. These integrated roles and responsibilities are compiled and applied throughout the process.

Public Participation has become one of the key features of developmental government. This aspect has been entrenched in the Constitution of the country and Chapter 4 of the Municipal System Act, which then becomes a legislative requirement. Participation of affected and interested parties ensures that the IDP addresses real issues that are experienced by communities within the municipality. Participation of the public in Local Government matters takes place through a structured manner hence the establishment of the IDP Representative Forum. A review of existing representatives will be made in order to involve stakeholders that were not included during the initial stage of planning process.

In terms of the Disaster Management Act, 2002, 19 in South Africa, **R. 1986 Disaster Management Act, 2002 (Act No. 57 of 2002): Regulations made in terms of Section 27(2) (Amendment Alert Level)...Regulation Gazette No. 10177 REPUBLIC OF SOUTH AFRICA Vol. 682 4 April 2022 No. 46195.** The municipality should adopt levels of the pandemic as and when they are Gazetted throughout the 2024/25 IDP/BUDGET process plan.

Municipal/IDP Manager will continuously ensure that the role players adhere to their performance roles throughout the process.

Amendment

These principles will only be amended by the majority decision of IDP Representative Forum.

Attached as Annexure see the diagram for institutional arrangements on page 33.

5. **MECHANISMS AND PROCEDURES FOR PUBLIC PARTICIPATION**

Public Participation has become one of the key features of developmental government. This aspect has been entrenched in the Constitution and Chapter 4 of the Municipal System Act, which then becomes a legislative requirement. Participation of affected and interested parties ensures that the IDP addresses real issues that are experienced by communities within the Municipality. Participation of the public in Local Government matters takes place through a structured manner hence the establishment of the IDP Representative Forum, which the Municipality will still maintain. A review of existing representatives will be made in order to involve stakeholders that were not included during the planning process by way of registering such stakeholders on the data base.

At the local level, participation will be restricted to wards, Provincial and National Sector Departments, representatives of marginalized groupings and organised stakeholders. Like during the planning process, the local municipalities will be responsible for arrangements and major link between the municipal government and communities, while continuous meetings to discuss their progress are held at District planning forum meetings.

In order to minimise the costs and participation fatigue, the Municipality will phase in participation of different stakeholders at various levels of development and review without compromising the element of accountability. Each Representative Forum will be held at a venue and time arranged by the Municipality. Participants will still be allowed to participate in all other local languages. Minutes of the previous meeting will be sent to participants 74 hours before when inviting them for another meeting. The draft documents will be available to all communities and stakeholders for comments.

6. **MECHANISMS AND PROCEDURES FOR ALIGNEMENT**

Alignment within the development and review process, serves as an instrument to synthesize and integrate the top-down and bottom-up planning process between different spheres of government. It should therefore be established and maintained between local and district municipalities and all parties involved, as well as other spheres of the government. It is the responsibility of Musina Local Municipality to ensure effective procedures for both vertical and horizontal alignment within the development and review process, in order to maximise co-ordinated and holistic delivery of services that are in line with national and provincial policies and strategies, as well as for proper allocation of departmental budgets and conditional grants.

BUDGET ALLOCATION FOR THE DEVELOPMENT OF THE IDP 2024/25

➤ Costs of Workshops and meetings	= R40 000
➤ Costs for printing and stationery	= R3 500
➤ Advertisements	= R38 000
➤ Catering and Transport	=R85 000

TOTAL COSTS = R166 500

7. **BINDING LEGISLATION OF PLANNING REQUIREMENTS**

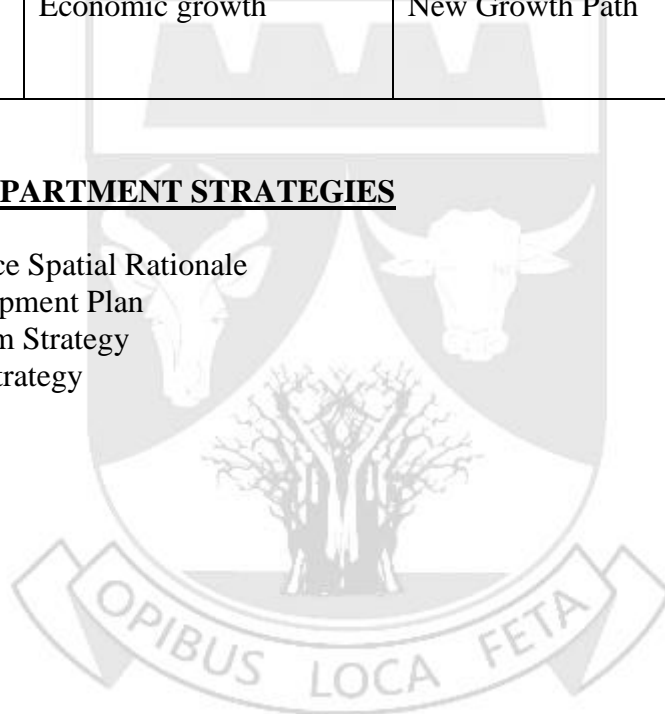

The IDP requires that the Municipal planning process be in line with National and Provincial Legislation as well as policies, programmes and strategies which will in turn be able to inform Annual budget allocations. National Acts and policies further require local governments to Produce certain Integrated Sector Plans which complement the IDP, thereby avoiding Unnecessary duplication. This necessitates a more co-ordinated and integrated information Sharing and dissemination between both specific sector Departments and municipalities.

8. **PRINCIPLES & PROCEDURES FOR MONITORING OF THE PROCESS PLAN**

All municipalities have a responsibility of monitoring their own Process Plans and ensuring that the District Framework is properly followed. The Municipal Manager will ensure that the process Plan is properly followed. Feedback on the management of each municipality Process Plan will be tackled in the Co-ordinating Committee meetings consisting of Local Municipalities Representatives and the District IDP Steering Committee, that meet after each phase or when urgent issues arise. If any deviation from the Process Plan occurs the Co-ordinating Committee should be informed and jointly assesses the impact of the deviation on other municipalities, however, Musina Local Municipality has the mandate to decide when and how an amendment takes place and therefore postpone an activity or continue with the agreed programme.

9. **CONCLUSION**

This Process Plan, as being part of the IDP planning preparation phase ensures that the role players within the process ahead are well prepared. All activities outlined within this document have been prepared in close interrelation with the Framework that governs both the District and all local municipalities.

This Process Plan, prepared in consultation with the relevant stakeholders will, after adoption by the Council be effective throughout the IDP process.
