SERVICE PROVIDER FOR DEVELOPMENT OF MUSINA INTERGRATED HUMAN SETTLEMENT SECTOR PLAN

TENDER NUMBER	03-2025/26 Re- advertisement	CLOSING DATE	26 MARCH 2026	CLOSING TIME	11H00

TERMS OF REFERENCE FOR THE DEVELOPMENT OF MUSINA INTEGRATED HUMAN SETTLEMENT SECTOR PLAN

1. BACKGROUND

The Bill of Rights contained in the Constitution of the Republic of South Africa entrenches certain basic rights for all citizens of South Africa including: "The right to have access to adequate housing". The Constitution also describes the objectives of local government as:

- 1.1 The provision of services to communities in a sustainable manner;
- 1.2 The promotion of social and economic development;
- 1.3 The promotion of safe and healthy environments; and
- 1.4 The encouragement of community and community organization involvement in matters of local government.

This section goes on to state that a municipality must strive, within its financial and administrative capacity, to achieve the above objectives. With regard to the development duties of local government, a municipality must structure and manage its administration and budgeting and planning processes to give priority to the basic needs of the community, and to promote the social and economic development of the community; and Participate in national and provincial development programmes. In terms of section 7(2) (g) of the Housing Act, 1997 (Act No 107 of 1997) "Every provincial government must prepare and maintain a multi-year plan in respect of the execution in the province of every national housing programme". Furthermore, in terms of Section 9(1) of the Housing Act, 1997 the function of Municipalities include that: "every municipality must, as part of the municipality's process of Integrated Development Planning, take all reasonable and necessary steps within the framework of national and provincial housing legislation and policy to —

(a) ensure that —

- (i) The inhabitants of its area of jurisdiction have access to adequate housing on a progressive basis;*

- (ii) Conditions not conducive to the health and safety of the inhabitants of its area of jurisdiction are prevented and removed;*
- (iii) Services in respect of water, sanitation, electricity, roads, storm water drainage and transport are provided in a manner which is economically efficient." (Housing Act 107 of 1997).*

Beyond these legislative obligations, the Musina Local Municipality's Spatial Development Framework (SDF) recognises the Musina-Makhado Special Economic Zone (SEZ) as a major economic driver for the region, with planned activities in mining, industrial manufacturing, tourism and related sectors. As the SEZ develops, it is expected to attract a significant influx of workers, which will create demand for new housing across different income groups. The SDF therefore emphasises the need for proactive planning of integrated human settlements that respond to this growth.

The SDF further directs that housing provision must be aligned to the National Housing Code (2009) to ensure effective implementation of sustainable, integrated human settlements. In line with the Breaking New Ground (BNG) Policy (2004), the Municipality is required to prioritise the development of mixed-income, mixed-use neighbourhoods that are safe, compact, environmentally sustainable and located in proximity to economic and social opportunities. This includes ensuring reliable access to basic services such as water, sanitation, electricity, roads, transport, schools, clinics and recreational facilities.

The Human Settlements Sector Plan (Housing Chapter) will serve as a five-year strategic framework that guides the transformation of existing settlements and the development of new, sustainable human settlements in Musina. The Plan will be reviewed annually to reflect changes in development trends, progress in implementation, and emerging housing needs, including those linked to the SEZ and broader municipal growth dynamics.

The overall purpose of these Terms of Reference is to appoint a suitably qualified Service Provider to develop and compile the IDP Housing Chapter in line with the guidelines provided in the Resource Book on Housing Chapters (National Department of Housing, 2008), and requires the Municipal IDP Housing Chapter to achieve the following:

- a) To define the scope of the housing planning component of the municipal IDP in relation to the requirements of the Housing Act and housing policies;
- b) To outline and unpack clear roles and responsibilities of relevant stakeholders critical to achieving integration of housing planning with integrated development planning in the municipality;
- c) To guide vertical and horizontal sector alignment within the municipal area;
- d) To provide an institutional structure to give effect to a demand-defined and supply negotiated approach to housing provision;
- e) To introduce systems and procedures to support and reward strategic and operational planning by enforcing Human Settlement Plan-led budgeting and implementation;
- f) To inform multi-year housing development plans of the Municipality as the basis for vertical alignment;
- g) To ensure that the human settlement planning activities which occur as part of the IDP are able to draw on existing housing related documentation and data resources;

- h) To ensure that the human settlement planning activities which occur as part of the IDP reflect community level concerns about housing demand as determined during the municipal IDP process;
- i) To ensure that the definition of the various types of housing demand as part of the IDP balances technical inputs with community-based inputs;
- j) To ensure the definition of housing demand is comprehensive and inform IDP objectives, strategies and project formulation and enable the specification of a municipal-wide picture of housing demand in the context of sustainable human settlements;
